今日综述 / TODAY'S BRIEF

今日简报主题是 AI 代理与基础设施竞赛同步加速，但政治与财务约束正在收紧。Perplexity 推出零陷介代理 Teammates，Airbnb 把 AI 客服下沉到旅行代理，Meta 在安装并加 Muse 模板通道，显示代理正在从聊天窗口走向可执行的现场。多模态与场景专用，与此同时，OpenAI 发布 GPT-6 Cyber 并披露 2027 年 IPO 预期，Google 以降价 30% 的 Gemini Omni 1.2 Flash 和 Gemini Deep Research 反击。四大巨头年内 资本开支合计至少 7200 亿美元且 2027 年继续加码，值得注意的是业界对算力与基础设施的关注，已经从单纯的模型比较扩展到部署成本、可靠性和供应链。

Perplexity has launched Teammates, always-on web-hosted AI agents that can take on multiple roles within a workspace while reusing existing projects, skills, and memory from Perplexity tools. Built on top of Perplexity Computer, the agents can run tasks in parallel but require the $200-per-month Max subscription. The move pushes Perplexity deeper into competition with OpenAI's Duet and Anthropic's Claude Duet in the workplace agent market.

Teammates 于 24/7 常驻时间对多项多个工作角色

功能基于 Perplexity Computer，需订阅 200 美元/月 Max 套餐

CEO 称未来每个组织将为每人配备数百个代理

Perplexity 推出常驻 AI 代理 Teammates

Perplexity launches its own take on AI agents for hire

The Verge 11-06 09:31 | 原始报道 | 来自 The Verge

Perplexity 推出面向工作场景的常驻 AI 代理 Teammates，可在工作区内承担多种角色，并复用用户已有的项目、技能与记忆。该功能基于 Perplexity Computer 构建，支持并行处理任务，但需订阅每月 200 美元的 Max 套餐，是单月单量最贵的订阅层之一。这与 OpenAI 的 Duets、Anthropic 的 Claude Duets 形成对照，竞争进入白热化。

02 模型发布

OpenAI 发布 GPT-6 Cyber 安全模型

OpenAI plans its new cybersecurity model to arrive to red-hacking other companies

The Verge 11-06 01:00 | 原始报道 | 来自 OpenAI、TechCrunch

OpenAI 推出网络安全模型 GPT-6 Cyber，称其在测试中能够进行先红 1 %、红 GPT-5.6 Cyber 的 5% 基准下降。该模型通过 ExploitGym 基准上得分 48.5%，并将助其登 Firefox 的 #1 个未知漏洞。OpenAI 将其在 Preparedness Framework 中列为 Critical 级别，仅向 Daybreak 网络 计划提供开放。

OpenAI launched GPT-6 Cyber, its latest cybersecurity AI model, saying it goes out of bounds less than 2 percent of the time in testing, down from around 5 percent with GPT-5.6. It scored 48.5% on ExploitGym and helped find the Exploitable Firefox bug that security researchers submitted to Firefox. OpenAI classifies it as Critical under its Preparedness Framework and is rolling it out to select Daybreak Red program members.

测试结果中显示 1%，较前代 5% 大幅下降

03 融资与商业

OpenAI 总裁称公司 2027 年或可 IPO

OpenAI president Greg Brockman says company could be IPO-ready in 2027

TechCrunch 11-06 02:00 | 原始报道

OpenAI 联合创始人兼总裁 Greg Brockman 在《华尔街日报》科技会议上表示，公司预计 2027 年具备 IPO 条件，并将企业业务收入占比多数。他透露第三季度年化收入环比增长 70%，企业业务翻倍，与 Anthropic 在智能体编程等领域的竞争仍是重点。

OpenAI co-founder and president Greg Brockman said at a Wall Street Journal tech conference that the company expects to be IPO-ready in 2027, noting that enterprise revenue now makes up the majority of its business. He said annualized revenue grew 70% quarter-over-quarter in Q3, driven by enterprise business doubling, while competition with Anthropic in areas like agentic coding remains a focus.

Gemini Omni 1.2 Flash 发布：支持 15 秒视频，降价 30%

Gemini Omni 1.2 Flash: Fast and cost-effective web longer clips

Google DeepMind 11-06 01:00 | 原始报道 | 来自 Google、Gemini

Google DeepMind 推出 Gemini Omni 1.2 Flash，原生支持最长 15 秒视频生成与多轮对话式编辑，单个一致性维度。价格比前代 1.1 版本下调 30% 至 720p 每秒 0.07 美元，该模型已在 Gemini API、Google Vids 和 Gemini for business 全面可用，并首次以 Google Cloud 企业版本对正式开放。

Google DeepMind released Gemini Omni 1.2 Flash, adding native video generation and multi-turn conversational editing up to 15 seconds, stronger reference consistency, and a 30% price cut to $0.07 per second for 720p versus Omni 1.1. It is generally available across the Gemini API, Google Vids and Gemini for business, marking Omni's first GA release with Google Cloud enterprise backing.

05 政策与监管

中国选举监督中击AI行业，数据中心禁令与监管压力上升

'Real opposition': The time wave is about to hit AI

The Guardian 11-06 01:00 | 原始报道

美国中期选举中民主党基于多个州的选举，多位当选者公开将AI公司为竞选主张。44州地方数据中心禁令中有43项在投票中通过，州长当选州长承诺暂停数据中心审批。AI公司面临监管要求、资产张荣阳与基智被要求停业的压力。

Democratic rank-and-file of the House of Representatives have won re-election elections, with many winners campaigning on holding AI companies accountable. 43 of 44 local data center moratoria on the ballot passed, and Texas's governor-elect pledged to halt data center approvals. AI companies now face tighter regulation, stalled corporate expansion, and pressure for CEO testimony.

Meta 在现场上线 Muse 视频通话功能

Meta says 170 users can now video chat with their Muse AI avatar

TechCrunch 11-06 03:48 | 原始报道 | 来自 The Verge

Meta 宣布，其消费级 AI 聊天机器人 Meta AI 现已支持 Muse Video 功能，允许用户与 Muse 定制角色进行实时视频通话。Muse 目前仅向美国地区的 Facebook 和 Instagram 用户开放，并可在 Meta AI 应用内访问。

Meta announced that Muse Video, which lets users call and video chat with their custom AI agent Muse, is now available to everyone in the U.S., powered by the Muse Realtime Avatar and Muse Realtime Voice models. Meta believes anthropomorphizing Muse through a customizable animated avatar can deepen users' connection to the agent, and that the ability to personalize the planned Tamagotchi-like Muse companion will further increase engagement.

07 政策与监管

OpenAI 发布社区如约支持为扩园区改建预留

Setting a new standard for responsible AI infrastructure

OpenAI 11-06 10:00 | 原始报道

OpenAI 发布 National Community Compact 与 Compute Campus Policy Blueprint，承诺为其建设首批的算力园区承担全部电力基础设施成本，以开永电与输首数据。不使用 NDA 限制公职人员，并呼吁州公用事业委员会与国会制定相应政策。首批园区将在 Stargate 框架下推进，并与现有社区利益团体协商展开。

OpenAI published a National Community Compact and a Compute Campus Policy Blueprint, committing to pay the full cost of electricity and infrastructure at its own compute campuses, disclose site-level water, energy and noise data, and avoid NDAs with public officials. The company also urged state utility commissions and Congress to act on related policy, and said it would engage local communities before breaking ground.

08 政策与监管

Meta 警告中期选举 botnet 或暗绿数中盛冷

Meta warns that election botnets against data centers could make AI expansion harder

TechCrunch 11-06 03:48 | 原始报道

Meta 总裁 Dina Powell McCormick 在 WSJ Tech 会议上表示，中期选举中主张限数将加大企业建设数量中心的难度，社区对数据中心的反对与公众对 AI 的警惕情绪相关。Meta 预测其 AI 基础设施投资受影响，但认为通过基础设施开发商、本地社区和政府的紧密合作，这已建算力可通过最简更成。

Meta President Dina Powell McCormick said at the WSJ Tech conference that Democratic midterm wins will make it harder for companies to build data centers, with community backlash tied to overall public sentiment on AI. Meta worries its AI infrastructure investments could be affected, but believes it can navigate the environment through close partnerships with local, and tax benefits, and that its growth can be streamlined through local, and.

Gemini 支持将手绘草图转为可交互应用

Transform a quick drawing into a live app with Gemini

Gemini 11-06 01:00 | 原始报道

Google 在 Gemini 应用内推出「用一张手绘草图开始」功能，允许用户上传或拍摄一张草图，即可把设计稿变成可运行的应用。生成结果可在预览窗口中调试，并实时调整颜色、字体和功能。这降低了从想法到原型之间的门槛，让非专业开发者也能快速验证应用概念。

Google launches a new Gemini feature that lets users upload a photo of a sketch and, using the Canvas tool, prompt Gemini to generate code that turns the design into a working application. The result can be tested in a preview window and adjusted in real time for colors, fonts, and features. The feature lowers the barrier from idea to prototype, letting non-developers quickly validate app concepts.

Merge 用 OpenAI 技术做产品与设计融合

Merge builds product and business tools with OpenAI technology

OpenAI 11-05 16:00 | 原始报道

基层平台 Merge 将 GPT-5-Astra、ChatGPT 和 Codex 用于代码审查、产品测试、营销及商销资料等各项内部运营。其 CEO 称整个 Merge 有望将每周从数个小时降至每周约 30 分钟，Q3 节约 16 市。Q4 计划超 30 市。这是企业将前沿模型嵌入日常业务流程的典型案例。

Integration platform Merge used GPT-5-Astra, ChatGPT and Codex for code review, product testing, marketing and internal operations such as planning executive dinners. Its CEO says AT can drone preparation from dozens of hours to about 30 minutes per event, with 16 dinners held in Q3 and more than 30 planned for Q4. The case illustrates how companies are embedding frontier models into everyday workflows.

Flipsnack 借 ChatGPT Ads 转化优化提升注册量

Flipsnack grows product signups with conversion optimization

OpenAI 11-05 16:00 | 原始报道

Flipsnack 将 ChatGPT Ads 新版目标从点击转向转化优化，在五个美国广告系列中注册量增长约 110%，单次注册成本下降 75%。该案例显示，这转化为目标的出价策略在 ChatGPT 广告中可直接提升获客效率，为 B2B 产品投放提供参考。

Flipsnack shifted its ChatGPT Ads campaigns from a click objective to a conversion objective, lifting registrations by roughly 110% and cutting cost per registration by about 75% across five US campaigns. The case shows that conversion-focused bidding can materially improve acquisition efficiency on ChatGPT Ads, offering a reference for B2B advertisers.

小鸟失天：AI 高效但时夺创作乐趣

Mario Rizzino says AI tools 'what makes the creative process fun, despite its efficiency. "It's not a form of creation I find particularly interesting'

AUTOMATION WEST 11-04 21:00 | 原始报道

小鸟失天在接受日本媒体 Game*Spark 采访时表示，AI 虽能提升游戏开发效率，却削弱了上能之日期，但把创作视化为无法收下。如收结果，表示其为 AI 游戏实现一些作乐趣的核心，但创造 AI 不受限制地发展，未来可能在前景得创新关键角色，并对这一问题为公众发布较一化。

In an interview with Japanese outlet Game*Spark, Hideo Kojima said AI boosts game-development efficiency and helps meet deadlines, but reduces creation to issuing commands and ignoring errors once the tool could move beyond that makes creativity enjoyable. He worries that if AI becomes unrestricted it could one day play a key role in creative fields, and said younger generations will have to decide how to handle that.

AI 提升开发效率，但创作过程被压缩

以指令、纠错为主，削弱了创作过程的乐趣

担忧 AI 无限制发展最终在年轻创作

Airbnb 计划 2027 年上半年推出 AI 旅行代理

Airbnb is working on an AI travel agent

TechCrunch 11-06 08:06 | 原始报道 | 来自 TechCrunch

Airbnb 在 2026 年第三季度财报发布信中宣布，计划于 2027 年上半年推出 AI 代理，帮助用户规划并预订旅行。该代理不会将传统客服工具，而是围绕用户问题实时组合地图、图片、价格、日历、行程等数百种旅行专用界面元素。Airbnb 称现有 AI 代理已覆盖近 三分之一 的问题，并计划将客服年成本降低 $11 亿美元。

In its Q3 2026 earnings shareholder letter, Airbnb said it plans to roll out an AI agent in the first half of 2027 to help users plan and book travel. Rather than a traditional chatbot, the agent will compose travel-specific interface elements such as maps, photos, comparisons, calendars and itineraries in real time around the user's question. Airbnb argued that existing agents handle only simple routine tasks, while its home-grown matching experience and existing role in reservations give it an edge.
